## Impact Report of English Conversation Club-1

### About English Conversation Club

Loi Aint's English Conversation Club is designed to prepare participants to enhance their English-Speaking skills in a supportive and interactive environment. This program focuses on practical usage of English in daily conversations, improving fluency, expanding vocabulary, and building confidence in speaking English.

### Program Goals:

- To improve participants' English speaking and listening skills.
- To enhance vocabulary and pronunciation.
- To build confidence in engaging in conversations in English.
- To foster a supportive community of English learners.
- To provide practical speaking opportunities through various activities.

### Program Duration:

The English Conversation Club will run from August 16th, 2024 to November 1st, 2024, with structured activities to maximize participants' learning experience. The session will be running every Friday from 8:00 pm to 10:00 pm.

**Note:** Schedules may be adjusted based on sessions and speaker availability.

## Demographic Statistic

This pie chart represents the gender distribution in the combination of one learning center called Bee Wisdom Education Learning Cente and some outsiders; 35% represents male students and 65% represents female students. This clearly states that the female make up larger portion of the participants.

### **Satisfaction on Participants' Performance**

The performance of the participants in the English Conversation Club (ECC-1) has been highly satisfactory, demonstrating noticeable improvement in their speaking confidence, vocabulary usage, and overall communication skills. Throughout the sessions, all the participants have actively engaged in discussions, showing their enthusiasm and a willingness to express their ideas in English. Their ability to hold conversations fluently and respond effectively to different topics has steadily improved due to their dedication and effort they have put on the ECC-1. Moreover, as we have focused on a particular program, we also gained some assistance from their teachers to monitor their understanding. Despite their struggle of speaking and understanding English, they actively worked hard and did their best. Additionally, their participation in interactive activities, such as questioning and answering during the session has also enhanced their practical language skills. Overall, the progress observed among participants has been impressive, and we are pleased with their continued growth and commitment to learning.

### **Progress of Participants throughout Sessions**

Over the past three months, the participants in the English Conversation Club had shown significant progress in their language skills. Out of the 36 students who initially registered, 31 have consistently attended the sessions, which they demonstrated their commitment to improving their English proficiency. The other 5 of the participants were not regular due to the internet connection in their region. Regular participants have developed higher confidence in speaking, expanding their vocabulary, and enhancing their ability to engage in discussions on various topics. Due to their regular participation and dedication they had contributed to the sessions, they brought the program to a success journey.
