Impact Report on Scholarship Bootcamp – I [2024-2025]

About Scholarship Bootcamp

The Loi Aint Scholarship Bootcamp is a comprehensive and practical program developed by Lu Nge Loi Aint, designed to refine and empower students from Myanmar with the requisite knowledge and skills necessary for applying to scholarships, particularly the Child's Dream and Prospect Burma scholarships.

The program focuses on:

1. Identifying scholarship opportunities

- 2. Crafting competitive applications
- 3. Writing compelling essays
- 4. Developing skills in interview preparation

Program Goals:

Our goal is to empower you with tools and strategies for wining scholarships.

By the end of the bootcamp, students would be able:

- Know how to prepare for Child’s Dream and Prospect Burma scholarships
- Create a scholarship application portfolio
- Develop strong personal essays and recommendation letter requests
- Gain confidence in presenting yourself professionally and preparing for interviews

Program Duration:

The bootcamp was run from December 19, 2024 to January 22, 2025, with structured activities to maximize your learning experience.

Selected Students Demographic (46 Students)

We have received a total of 121 applications. Among them, 46 students were finally selected for our Scholarship Bootcamp.

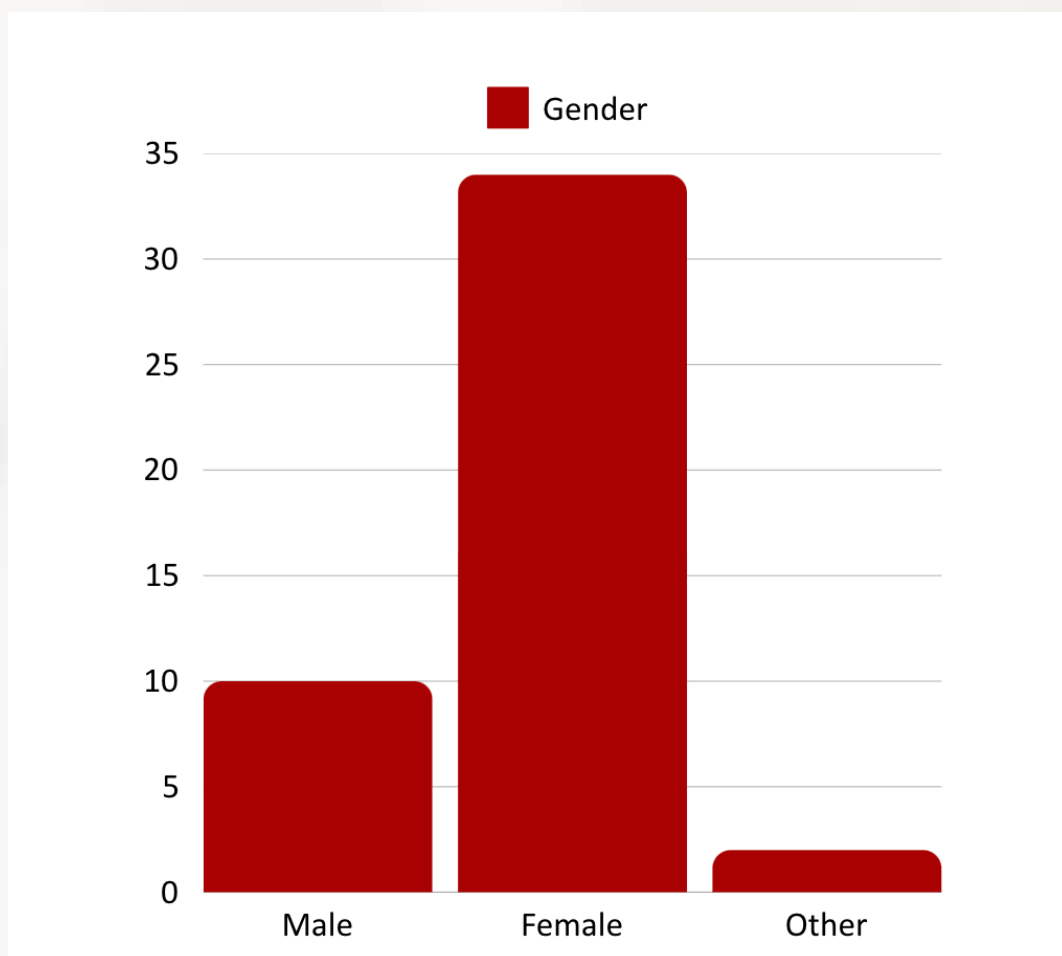

State or Region

This pie chart represents the distribution of a dataset across various regions. Each segment corresponds to a specific region, with its percentage labeled.

Key Observations:

- **Mandalay (23.9%)** has the largest share.
- **Yangon (10.9%), Shan (10.9%), and Mon (10.9%)** have equal proportions.
- **Kachin (8.7%) and Karen (8.7%)** have the same share.
- **Kayah (6.5%) and Sagaing (6.5%)** follow with similar distributions.
- **Magwe (4.3%)** has a smaller portion.
- **Rakhine (2.2%) and Bago (2.2%)** have the smallest shares.

This bar chart visualizes gender distribution with three categories: **Male**, **Female**, and **Other**.

Each category has a corresponding bar indicating its frequency.

- **Key Observations:**

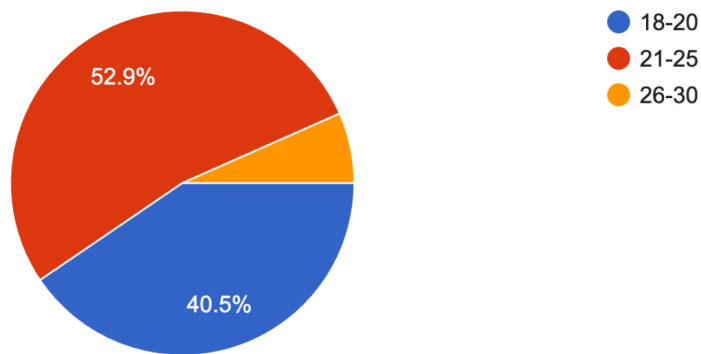

- **Female** has the highest count, significantly larger than the other two categories.

- **Male** has a smaller count, approximately one-third of the Female category.
- **Other** has the lowest representation, with a minimal count compared to the other two groups.

Conclusions on Scholarship Bootcamp Applications

1. Majority are First-Time Applicants

- Since nearly **70% have never applied** for a scholarship before, the bootcamp should focus on **step-by-step guidance** to help applicants understand the process, requirements, and best practices.

2. Strong Female Representation

- With **74.4% of applicants being female**, this indicates a high interest from women in pursuing further education through scholarships. Programs could include mentorship and networking opportunities specifically for female applicants.

3. Diverse Age Group, Mostly Young Adults

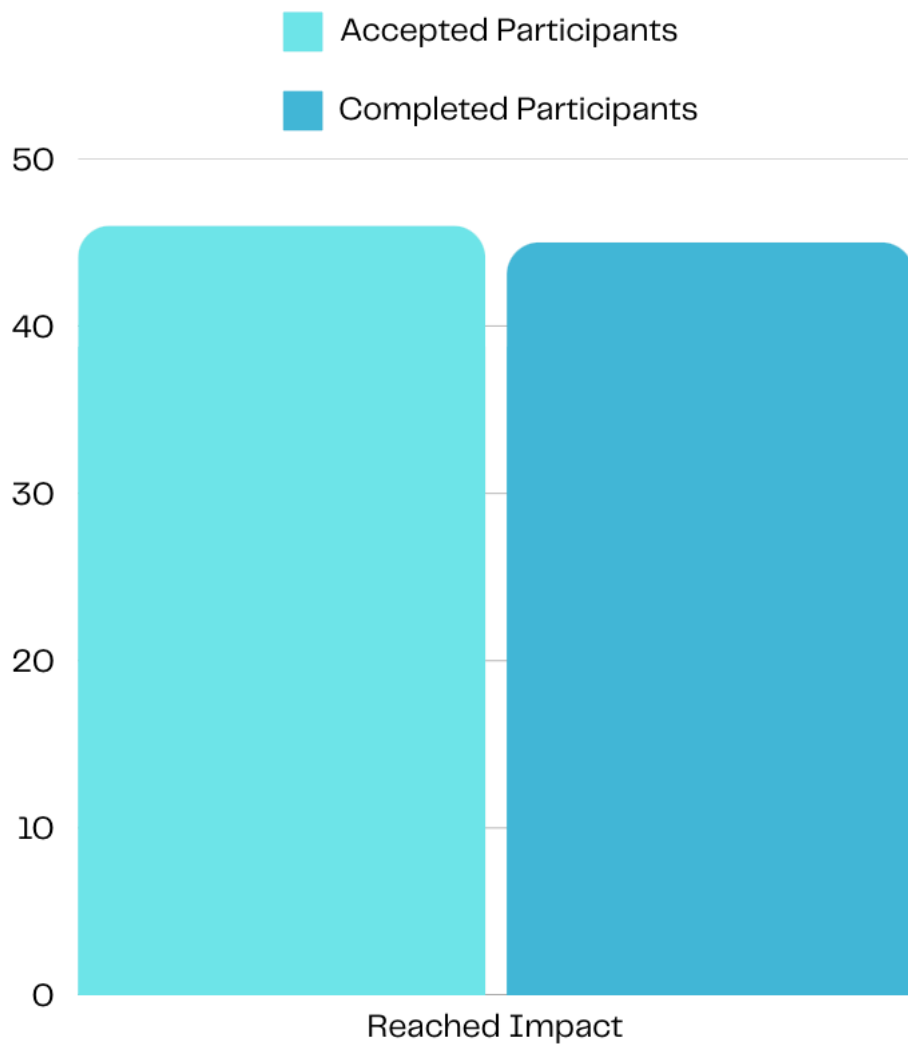

- The majority (52.9%) are aged **21-25**, followed by **40.5% aged 18-20**. This suggests most applicants are either **undergraduates or recent graduates**. The bootcamp should cater to their needs, such as **essay writing, recommendation letters, and interview preparation**.

4. High Interest in Multiple Scholarships

- About **64.5% want to apply for both** the Child's Dream Scholarship and the Prospect Burma Scholarship. This suggests applicants are eager to **increase their chances** of securing funding, and the bootcamp should offer guidance on tailoring applications for both scholarships.

The scholarship bootcamp should focus on **beginner-friendly, structured application support**, with a strong emphasis on **essay writing, eligibility criteria, and confidence-building**, especially for first-time applicants. Given the high female participation, targeted empowerment programs may also be beneficial.

Reached Impact

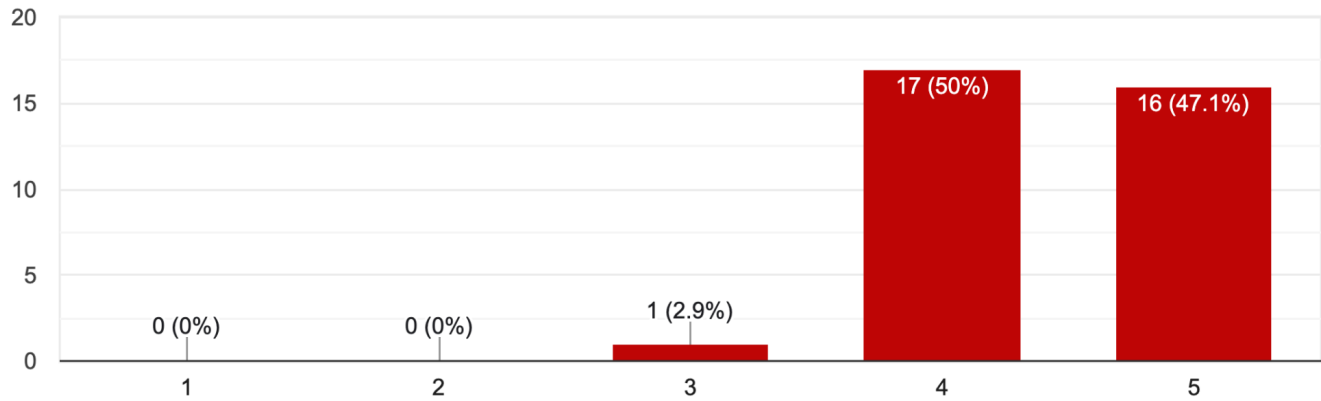

Out of 46 participants, 45 of them successfully completed all the requirements of the Scholarship Bootcamp.

One student was absent due to his or her evacuation to IDP area for the security situation in his or her region and lack of internet.

Interpretation of the Scholarship Bootcamp Evaluation Data

The data provides insights into the effectiveness of the training program, highlighting its strengths and areas for improvement. Here are the key interpretations:

1. High Relevance & Satisfaction Levels

- **97.1% of participants found the content relevant**, suggesting that the topics covered were well-aligned with their needs.
- **94.2% overall satisfaction (rated 4 or 5)** indicates that the bootcamp successfully met expectations.

 **Interpretation:** The training effectively addressed the target audience's needs and expectations, reinforcing its value.

2. Strong Trainer Performance & Knowledge

- **100% of participants rated the trainers' knowledge and delivery at 4 or 5**, showing their expertise.
- **A small percentage (11.8%) rated engagement & responsiveness at 3**, which suggests that while trainers were knowledgeable, interactivity could be improved.

📌 **Interpretation:** Trainers were well-prepared and knowledgeable, but there might be room to increase engagement through interactive sessions or Q&A opportunities.

3. Effectiveness of Training Materials & Structure

- 88.3% rated the training materials highly (4 or 5), but 11.8% saw room for improvement.
- The organization of the program was mostly well-received, but 11.7% rated it at 3 or below.

📌 **Interpretation:** While materials and structure were effective, small refinements in presentation style, accessibility, or scheduling could enhance the experience.

4. Positive Learning Environment

- 91.1% found the training environment comfortable, but a small percentage had lower ratings.
- Possible concerns could be related to venue setup, accessibility, or technology used.

📌 **Interpretation:** Minor logistical improvements, such as seating arrangements, audio-visual setup, or accessibility considerations, may enhance the overall experience.

5. Boost in Scholarship Application Confidence

- 73.5% of participants rated their confidence between 8 and 10, showing a strong impact.
- This suggests that most participants feel significantly more prepared after the bootcamp.

📌 **Interpretation:** The training successfully empowered participants with the knowledge and skills needed to apply for scholarships.

Our Success and Final Conclusion on Training Evaluation

The evaluation of the **Scholarship Bootcamp – 1 (2024-2025)** indicates that the program was largely successful in achieving its objectives. Key takeaways include:

1. **High Completion Rate** – Out of 46 participants, 45 successfully completed all the bootcamp requirements. The only absentee was due to an unavoidable security-related evacuation, not program-related issues.
2. **Effective Training Structure** – The bootcamp followed a structured approach with a combination of lectures, essay writing sessions, scholarship consultations, and interview preparation. This ensured that participants gained well-rounded knowledge on applying for **Child's Dream and Prospect Burma scholarships**.
3. **Beginner-Friendly Approach** – Since nearly 70% of applicants were first-time scholarship seekers, the training provided essential step-by-step guidance on **essay writing, recommendation letter requests, and interview techniques**, making it highly relevant to the participants' needs.
4. **Strong Female Participation** – With 74.4% of applicants being female, the program successfully reached and empowered a significant number of young women. Future initiatives could consider **mentorship programs and networking opportunities** tailored for female scholars.
5. **Diverse Age Group & Interests** – Most participants (52.9%) were between **21-25 years old**, followed by 40.5% in the **18-20 age range**, showing that the bootcamp effectively catered to undergraduate and recent graduate students. Furthermore, **64.5% aimed to**

apply for both scholarships, emphasizing the need for tailored support in multiple scholarship applications.

6. **Challenges & Areas for Improvement** – While the training was comprehensive, a potential area for enhancement could be **offering ongoing mentorship** beyond the bootcamp, particularly for first-time applicants who might need **continuous feedback on their applications**.

Overall, the **Scholarship Bootcamp – 1** demonstrated **strong impact and effectiveness** in equipping students with scholarship application skills. Future iterations can build on this success by incorporating **follow-up support, female-focused initiatives, and additional personalized coaching**.
